

# Your Path to a New Home

## Know Your Benefits and Select a Lender

Connect with your Mobility Advisor to understand your home purchase relocation benefits and to select an in-network lender.

## Get Preapproved

Take the first step toward getting preapproved to have a better understanding of what you can afford. Access your lender's resources to help you make informed financial decisions.

## Start Searching for Homes

When you're ready to look at homes, use smart homebuying tools to narrow down your options and find the right one for you.

## Make an Offer

Once you've found a home you love, make an offer. Be prepared for some negotiation, as there may be a little give-and-take on the final price.

## Apply for a Mortgage

After making an offer, complete your loan application and submit the required documents. Stay in touch with your lender to track your loan progress and prepare for a property appraisal to confirm the home's value.

## Close on Your New Home

It's time to get the keys! By selecting a lender with mortgage solutions tailored to your unique relocation situation, you've helped ensure a timely closing and a smooth transition.
